Our Global Expansion

Where there are animals, there's Bimeda.

Over 60 years Bimeda has continually expanded its geographic footprint, through both organic growth and strategic acquisitions, seeing Bimeda become a truly global leader within the animal care industry.

From cattle veterinarians in Brazil to dog lovers in Shanghai, rodeo athletes in the US, and Maasai herdsman in Kenya, Bimeda products help people around the world to optimize the health and wellbeing of the animals they care for each and every day.

Our Global Expansion
(Greenfield and Acquisitions)

Our Global Presence

Optimizing The Health Of The World's Animals

Bimeda's broad product range of **vaccines, veterinary pharmaceuticals** and **nutritional products** are found in **over 75 countries worldwide**, contributing to the welfare, health, performance and productivity of livestock, poultry and companion animals on six continents.

Global Innovation Program

Our commitment to innovation

Innovation is in **Bimeda's DNA**. From developing the first intramammary teat sealant in the 1970s to manufacturing the world's only soluble glass multiple trace element bolus, Bimeda has over half a century's expertise in anticipating the future needs of the global animal health market.

Today, teams from our **6 research and development** laboratories collaborate on our **global innovation program**, ensuring a robust pipeline of new products, designed to exceed the expectations of our customers.
